

RF (RADIO FREQUENCY) MONO & DUAL SYSTEMS

The **Stanley RF Mono Pedestal** is an advanced single 8.2 MHz system capable of operating either as stand alone or in an installation of multiple pedestals. It comes as a robust aluminium framed aerial with plexiglas body and can accommodate advertising panels.*

The **Stanley RF Dual Pedestal** shares the same design and materials with the added benefit that the detection distances are wider than the Stanley RF Mono due to two pedestals.

FEATURES:

- Intelligent transmitter preventing label deactivation
- Enhanced detection utilising both swept and single frequency operation
- Selectable sounder pattern
- Adjustable sounder volume
- Visual and audible alarm
