The Managed Payroll People

Why outsource your payroll?

Outsourcing is the **simplest, most efficient and most flexible** way to manage your payroll.

- You know all costs in advance making **budgeting simple**
- It **saves you time and money** whilst lifting the administrative burden
- You do not need to worry about changes in payroll legislation and statutory requirements. They are **dealt with automatically**.
- You **avoid the hassle** of dealing with HM Revenue and Customs, DSS and other official bodies. This is done for you.
- You **avoid the IT and training costs** of running your own payroll department and **free up scarce resource**
- You **avoid the inconveniences and costs** of covering payroll staff sickness and holiday
- **Confidentiality**, processing accuracy and meeting payment **deadlines are prerequisites**
- All standard, complex or company **specific reports designed** to meet your exact requirements now and in the future

Why choose *Trace*?

It's not just the services that matter, picking the right provider is just as important. So what makes Trace different from other suppliers?

- Trace is a **well established and respected** company with 30 years experience providing quality payroll service
- All our staff are **experienced payroll professionals** who understand the complexities of current payroll processes and legislation
- Our service is **efficient and cost effective**. We are constantly adjusting and upgrading our service, striving to offer increased value to our customers
- We **tailor our service** for each customer, fitting in with them, rather than expecting them to change for us
- Our **unique software**, Phoenix Payview, gives you full visibility of your payroll data at any time and offers advanced reporting options
- We are **committed to forming long-term partnerships** with our customers, getting to know them and providing a **friendly**, as well as, **efficient service**
- We dual key all data that insures it **double checked and high levels of accuracy**
- We do not believe in anonymous help lines. We give each customer a **named contact** at Trace

Key Features:

A Partnership with a Major Player

Our agreements represent a true partnership, not just a high-risk single transaction.

Best Advice and Intelligent Use of Money

No need to raise and justify large capital outlay, or purchase a depreciating asset.

Comfortable Budgeting

One manageable payment covering product, installation and service on flexible terms to suit your operating budget.

Keep Up with Technology

Agreements geared towards product development – you can always have the latest and the best.

Better Accounting Sense

No balance sheet reporting and potentially improved tax efficiencies.

Underpinned Performance

One-on-one relationship for product, service and finance, providing considerable customer leverage.

In-built Flexibility

Partnerships geared towards ongoing change with ability to renegotiate at any time.

Overall Better Value

In comparison, calculations prove that a partnership with Stanley is better value than traditional purchases.

Service

A key part of the Stanley service is our ability to provide nationwide coverage 24 hours a day, every day of the year through our team of fully qualified Service Select engineers. With the added support and co-ordination of our National Call Centre operators, who are in constant radio communication with the engineers in the field, you can always be assured of a speedy response and the highest levels of service.
